INVITATION

Dear Colleagues and Friends,

On behalf of the Korean Society of Neurogastroenterology and Motility (KSNM), it is our great honor and pleasure to invite you to APNM 2022 (9th Asian Postgraduate Course on Neurogastroenterology and Motility in conjunction with the 33rd Annual Conference of the Korean Society of Neurogastroenterology and Motility), which will be held in Incheon, Korea from April 1 to 2, 2022.

Loss of quality of life due to functional gastrointestinal disorders has become an increasingly important medical issue as our societies become increasingly aged, stressed and complex. To lead on this issue with Asian colleagues, KSNM launched the 1st APNM in 2001 and we are proud to be holding the 9th APNM congress in 2022.

Under the theme of "Building a network for FGIDs research in new era," APNM 2022 will offer a wide range of scientific programs including oral and poster presentations and exhibition as well. In addition, social events will be held in the evenings for unforgettable memories with colleagues from all over the world.

We look forward to seeing you at APNM 2022!
