CURRICULUM VITAE

Name	Kee Wook Jung	**Country**	Korea
Affiliation/ Present Position	Clinical Professor Department of Gastroenterology, Asan Medical Center, University of Ulsan College of Medicine, Seoul, South Korea		

Education
August 2004-August 2008 Ph.D, Gyeongsang National University, Postgraduate College of Medicine, Gyeongnam, South Korea March 1999-August 2001 Master of Internal Medicine, Gyeongsang National University, Postgraduate College of Medicine, Gyeongnam, South Korea March 1991-February 1997 Bachelor of Medicine, Gyeongsang National University, College of Medicine, Gyeongnam, South Korea

Training and Carrier (Residency and Experience)
March 2019-Present Clinical Professor of Gastroenterology, Asan Medical Center, Seoul, South Korea September 2012-February 2019 Clinical Associate Professor of Gastroenterology, Asan Medical Center, Seoul, South Korea July 2010-August 2012 Clinical Assistant Professor of Gastroenterology, Asan Medical Center, Seoul, South Korea July 2009-June 2010 Advanced Esophageal Fellow (clinical), Mayo Clinic, Rochester, MN, USA March 2006-February 2008 Clinical Fellowship of Gastroenterology, Asan Medical Center, Seoul, South Korea

Award and Activity
2020-present: vice secretary general of Asian Neurogastroenterology and Motility Association (ANMA) 2019-present: member of Chicago 4.0 classification (esophageal motility disorder) 2014-present: member of international anorectal physiology working group (anorectal motility disorder) 2019-present: Director of Education in Korean Society of Neurogastroenterology and Motility

Research Interests
Functional Gastrointestinal Disorders Gastrointestinal Motility Disorders

Bibliography: representative publications from the last three years
1. The Clinical Usefulness of Functional Luminal Imaging Probe in Esophageal Dysmotility Disorder. J Neurogastroenterol Motil. 2022;30;28(4):509-511 2. Predicting Responsiveness to Biofeedback Therapy Using High-resolution Anorectal Manometry With Integrated Pressurized Volume. J Neurogastroenterol Motil. 2022;30;28(4):608-617 3. High-resolution impedance manometry for comparing bolus transit between patients with non-obstructive dysphagia and asymptomatic controls. Neurogastroenterol Motil. 2022; 23:e14452. 4. The Predictive Value of Intraoperative Esophageal Functional Luminal Imaging Probe Panometry in

Patients With Achalasia Undergoing Peroral Endoscopic Myotomy: A Single-center Experience. J Neurogastroenterol Motil. 2022;30;28(3):474-482
5. An Asian perspective on irritable bowel syndrome. Intest Res. 2022 May 31
6. A Case of Sprue-like Enteropathy Associated With Valsartan and Irbesartan. J Neurogastroenterol Motil. 2022;30;28(2):327-329
7. Self-reported Non-celiac Gluten Sensitivity in the Korean Population: Demographic and Clinical Characteristics. J Neurogastroenterol Motil. 2022;30;28(2):283-290
8. Long-Term Risks of Parkinson's Disease, Surgery, and Colorectal Cancer in Patients With Slow-Transit Constipation. Clin Gastroenterol Hepatol. 2021;19(12):2577-2586
9. New parameter for quantifying bolus transit with high-resolution impedance manometry: A comparison with simultaneous esophagogram Neurogastroenterol Motil. 2020;32(7):e13847
10. Esophageal motility disorders on high-resolution manometry: Chicago classification version 4.0©. Neurogastroenterol Motil. 2021;33(1):e14058
11. Chicago Classification Update (v4.0): Technical review on diagnostic criteria for distal esophageal spasm. Neurogastroenterol Motil. 2021;33(5):e14119.
12. The international anorectal physiology working group (IAPWG) recommendations: Standardized testing protocol and the London classification for disorders of anorectal function. Neurogastroenterol Motil. 2020;32(1):e13679
13. An Increasing Trend of Eosinophilic Esophagitis in Korea and the Clinical Implication of the Biomarkers to Determine Disease Activity and Treatment Response in Eosinophilic Esophagitis J Neurogastroenterol Motil. 2019 30;25(4):525-533
14. What Is Appropriate Upper Endoscopic Interval Among Dyspeptic Patients With Previously Normal Endoscopy? A Multicenter Study With Bayesian Change Point Analysis. J Neurogastroenterol Motil. 2019 30;25(4):544-550
15. Superior clinical outcomes of peroral endoscopic myotomy compared with balloon dilation in all achalasia subtypes. J Gastroenterol Hepatol. 2019;34(4):659-665.
16. Colonic Pseudo-obstruction With Transition Zone: A Peculiar Eastern Severe Dysmotility. J Neurogastroenterol Motil. 2019 31;25(1):137-147
17. Validation of the Korean Version of the Gastroesophageal Reflux Disease Questionnaire for the Diagnosis of Gastroesophageal Reflux Disease. J Neurogastroenterol Motil. 2019 31;25(1):91-99
